

NORTHERN COLORADO REGIONAL FORENSIC LABORATORY

DME 1 PURPOSE

The purpose of the NCRFL Digital Multimedia Section is to provide professional and reliable examination and analysis of devices and recordings submitted by customers. The Section examines digital and analogue media on the following devices:

- Computers including desktop, laptops, tablets, notebooks, and similar devices
- Portable/peripheral storage media such as USB drives, flash memory, CDs, etc.
- Cell phones
- Entertainment devices such as MP3 or iPods
- GPS devices
- Audio recordings
- Video recordings

It is a function of the Section to provide opinions and conclusions based on the examination of submitted devices where we have the required training and expertise, and appropriate equipment and/or software.

Personnel of the Section may provide expert testimony in matters involving examination of devices submitted for analysis within the broad definition of digital multimedia and to do this in a professional, competent and impartial manner.
